Training Objectives

Module 4 – Report and Respond

By the end of this module, you will:

- Be aware of the risks of handling trafficked wildlife
 - Disease
 - Injury
- Understand how to minimize these risks to protect yourself and others
- Understand how to report wildlife crime
- Understand that tip offs given by airline and airport staff do work and have led to wildlife seizures

What should you do?

What to do next?

It is important that items which could be used to help investigation and prosecution are protected:

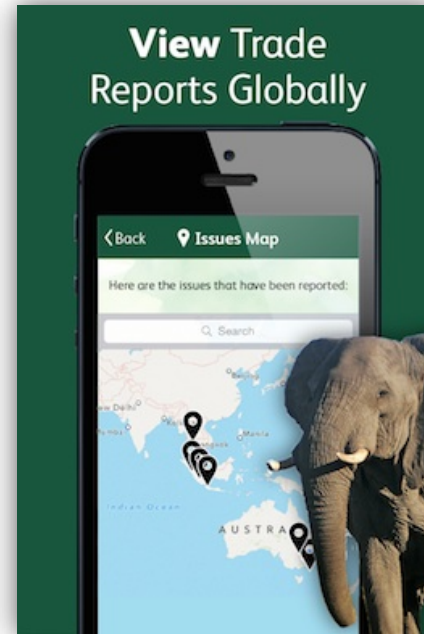

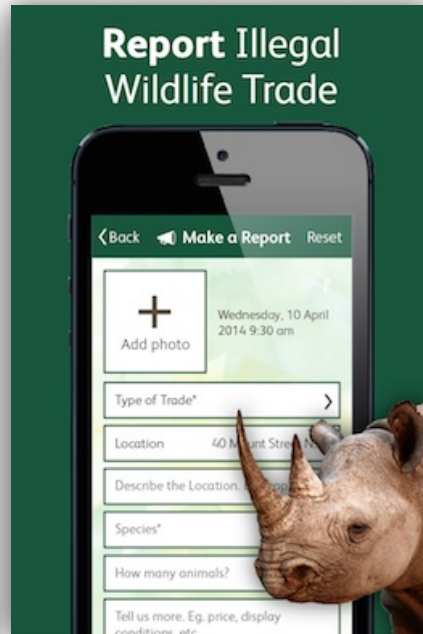

- Do not let unauthorized personnel remove any item (e.g. baggage tags, documentation etc.)
- Any photographs should be given to the authorities to assist in their investigation
- If you are involved in the investigation, make sure that you wear gloves.

If you are unsure, seek advice.
